ABSTRACT

Statistics on college and university library collections, operating expenditures, and staff salaries and wages for the 1970-71 school year, as well as data on staff for fall 1971 and budgeted operating expenditures for the 1971-72 school year are presented in this report. These data are shown for 2,514 college and university libraries and five joint libraries. The data are presented on the basis of "reporting units" as contained in the basic file of colleges and universities for the Higher Education General Information Survey. A "reporting unit" is defined as a single-computer institution, a main or branch campus of an institution with a single central administration, or an institution that is part of a multi-institutional system. The joint libraries, which represent two or more institutions or branches of institutions, have been added as quasi-reporting units for this survey. Details regarding definitions and other features of the survey are indicated in the questionnaire and accompanying instruction are given in Appendix I. Appendix II lists the new institutions. FOREWORD

Surveys of College and University Libraries were initiated by the U.S. Office of Education for 1939-40 and conducted during the 1940's and 1950's at irregular intervals. During the 1960's, reports for individual institutions were provided for all years except 1964 and 1965. Analytic reports were released for 1960, 1962, 1964, 1968, and 1969. No survey was conducted during 1970.

In this report for 1971, data are provided for the first time for the branch campuses of multicampus institutions. In the past, a single consolidated institutional report was presented. However, many multicampus institutions were not included because one or more segments of the institution had not submitted a report. This publication presents significantly more information by the inclusion of important segments of these institutions.

In order to provide timely data of maximum use to administrators, librarians, and others in decisionmaking and budget preparation, the institutional listing is published in two parts. This report, which represents the data of 2,514 college and university libraries and five joint libraries, contains the basic statistics on the library collection, library staffing, regular staff salaries, hours of assistance and wages of hourly staff, and operating expenditures, by function, both actual for 1970-71 and budgeted for 1971-72. A second institutional report, containing supplemental information for an identical listing of colleges and universities, is planned.

This partial listing of the college and university libraries, representing almost 86 percent of the universe, is based on those reports that could be edited and processed in time for inclusion. Since the data are not necessarily representative of the universe, they should not be used to obtain aggregates of any type. An analytic report with summary tables for all responding college and university libraries will be published at a later date.

The information contained in this report was collected as part of the Higher Education General Information Survey. The cooperation of numerous individuals and groups concerned with academic library statistics made this publication possible. Their assistance is greatly appreciated by the U.S. Office of Education.

INTRODUCTION

This report contains statistics on college and university library collections, operating expenditures, and staff salaries and wages for the 1970-71 school year, as well as data on staff for fall 1971 and budgeted operating expenditures for the 1971-72 school year. These data are shown for the 2,514 college and university libraries and five joint libraries whose reports could be edited and processed in time for inclusion here.

Some libraries submitted reports during the reporting period which, after examination, could not be included in the processing operations. However, after resolution of the problems in these reports, they will be incorporated into the data file for future tabulations and analysis. One other group of institutions from which reports were received but not used are those so-called "new" institutions or those with libraries in the process of being established. The reports of these libraries would not have been comparable with other reports. In most instances, there were no data for their 1970-71 school year, current staffing was quite small, and the collection had recently been installed (see appendix II for a listing of those "new" institutions).

This year, for the first time, data are presented on the basis of "reporting units" as contained in the basic file of colleges and universities for the Higher Education General Information Survey. A "reporting unit" is defined as a single-campus institution, a main or branch campus of an institution with a single central administration, or an institution that is part of a multi-institutional system. The joint libraries, which represent two or more institutions or branches of institutions, have been added as quasi-reporting units for this survey.

TABLES

In all tables, institutions are listed alphabetically within each State; "U.S. Service Schools" and institutions in outlying areas are grouped at the end of each table. Brackets have been inserted in the margin to show the clusters of branches within a multicampus institution or of institutions within a "system" of institutions. Therefore, if the name of an institution is not found in its expected (alphabetic) position in the list, the reader should also see whether the institution appears in one of the bracketed sets in the given State. Each of the bracketed sets contains the name of the multicampus institution or institutional system. When the name of the institution or system also bears the legend "all campuses" or "all institutions," the listing of components that follows is complete. Otherwise, one or more reporting units is missing.

Each reporting unit is identified (in column 2) by control (PUB = public; PRI = private) and by type of institution as follows:

U -- University;
F -- Four-year institution;
T -- Two-year institution.

In all tables the symbol "NA" indicates that the respondent either did not supply a clear or unambiguous entry or left the item blank.

DEFINITIONS

Publicly controlled institutions are those administered by local or State governments, as well as a few in which administrative control is by the Federal Government. All other institutions, including religious or theological, independent nonprofit, and a few profitmaking schools, are classified as privately controlled.

Institutions are classified as universities if they (a) give considerable stress to graduate instruction, (b) confer advanced degrees as well as bachelor's degrees in a variety of liberal arts fields, and (c) have at least two professional schools that are not exclusively technological. These criteria are the same as those utilized in previous reports in this series. Other 4-year institutions are classified as a single group. Two-year institutions are those offering programs of at least 2 but less than 4 years of college-level work. This definition is also the same as the one previously employed and is synonymous with the term "junior college" or "community college."

Volumes are defined as physical units of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which had been classified, cataloged, or otherwise prepared for use. Thus the volume count includes bound periodicals and cataloged government documents, but excludes all microfilm. The latter was obtained separately, as a count of microfilm reels plus the number of physical units of other forms of microtext (microcards, microprints, and microfiche units).

Periodicals are defined as publications issued in parts that usually contain articles by several contributors; they generally have distinctive titles, and the successive numbers or parts are intended to appear at stated intervals, usually for an indefinite period. Periodicals are thus distinguished from such other serials as monographs, newspapers, annuals, proceedings, transactions, yearbooks, and recurring reports, for which data were not requested.

In this survey, library operating expenditure items were requested both as actual expenditures in 1970-71 and as budgeted expenditures in 1971-72. The request for budgeted expenditures was included in order to obtain current financial data for use by librarians in their budgeting work.

Librarians are defined as staff members doing work that requires training and skill in the theoretical or scientific aspects of library work, as distinct from its mechanical and clerical aspects.

Other professional staff are defined as personnel who, though not professional librarians, are in positions normally requiring at least a bachelor's degree.

Clerical and other staff on library budget are defined as personnel in receiving, shipping, storing, secretarial duties, etc., (excluding maintenance personnel); i.e., library staff whose duties do not require knowledge of the theory of library work.

Data for all library staff are in terms of full-time equivalents, as also are data on vacancies.

In reporting regular staff salaries, respondents were given the option of restricting use of their salary figures to summary or analytic tables in which salaries paid by individual institutions are not identifiable. Consequently, in the salary data of this report (table 3), the symbol "R" is shown in place of the salary figure wherever the respondent asked that the figure be so restricted.

Further details regarding definitions and other features of the survey are indicated in the questionnaire and accompanying instructions (see appendix I).

1. INSTITUTION CODE NUMBER

2. DUE DATE
Not later than October 1, 1971

Items 1, 3, 4, 5, and 6 MUST be completed by all institutions. If applicable, complete items 7 and 8. Submit a separate survey form for each of the campuses or branch campuses of the institution. If it is impossible to provide separate data for any branch campus, and the data for that branch must be included in the parent institution's report, indicate this in item 8 below.

3. NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED
BY THIS REPORT (Include city, State, and ZIP code)

4. NAME AND TITLE OF RESPONDENT

5. TELEPHONE NUMBER OF RESPONDENT (Area code, local number and
extension)

6. THE INSTITUTION COVERED BY THIS REPORT IS (Check only one)

(a) ☐ A SINGLE-CAMPUS INSTITUTION

(b) ☐ A MAIN CAMPUS ("Parent" institution) WITH ONE OR MORE
BRANCH CAMPUSES AND/OR OTHER CAMPUSES (Specify in
item 8 below)

(c) ☐ A BRANCH CAMPUS OF A PARENT INSTITUTION (Write
the name of parent institution below)

(d) ☐ ONE OF THE ADMINISTRATIVELY EQUAL CAMPUSES OF A
MULTI-CAMPUS INSTITUTION

7. IF THE INSTITUTION COVERED BY THIS REPORT IS INCLUDED IN AN "INSTITUTIONAL SYSTEM", WRITE THE NAME OF THE SYSTEM BELOW.

8. PARENT INSTITUTIONS (As checked in item 6b) SHOULD LIST THE NAMES OF ALL THEIR BRANCH CAMPUSES BELOW. USE THE FIRST COLUMN
TO SHOW WHETHER DATA FOR ANY OF THESE UNITS ARE INCLUDED WITH THE DATA FOR THE "PARENT" IN THIS REPORT.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

DETACH THIS PORTION AND MAIL COMPLETED FORM TO U.S. OFFICE OF EDUCATION.

EXPLANATIONS AND INSTRUCTIONS

In this form, basic data are requested on the collections, staff, and expenditures for college and university libraries. The compilations of these data have proved to be valuable tools for administrators, chief librarians, and others concerned with the improvement of library services to higher education. The data also will assist in the administration of Title II of the Higher Education Act and other programs sponsored by State and Federal agencies.

The questionnaire has been simplified and made more relevant to today's academic libraries, compared with the preceding form of Fall, 1969. The items concerning mean salary and the distribution of full-time library staff by salary are not included in this form, to avoid duplication with the American Library Association's Salary Survey for 1970.

In addition to the collection of library operating expenditure data for 1970-71, such data are requested also for the current academic year, as expressed in the 1971-72 budget. New Parts IV and V have been added, to ascertain the developments regarding library services provided to clientele outside of your institution, interlibrary cooperation, community outreach, and audiovisual and/or other nonprint materials.

GENERAL INSTRUCTIONS

A. TIME PERIODS COVERED. Two periods of time (1970-71 and 1971-72) and two points of time (end-of-year 1970-71 and fall 1971) are involved in this survey. Library collection data (Part I) should be reported for both 1970-71 and end-of-year 1970-71. Salary expenditure data (Part II, Section B), hourly staff data (Part II, Section C), and funds received for library services provided to clientele outside of your institution (Part IV) should be reported only for 1970-71. Library operating expenditures (Part III) should be reported for both 1970-71 and the current academic year as expressed in the budget for 1971-72. The number of positions for the regular (non-hourly) staff (Part II, Section A) and the developmental areas data (Part V) should be reported as of fall 1971.

B. LIBRARY UNITS COVERED. Report consolidated data for all library units of your campus and for all library services provided by your library to clientele of your own institution as well as to clientele outside of your institution.

Fill out a separate form for the main campus and for each branch or other campus. Do not fill out separate forms for extension centers and research installations. Information concerning extension center libraries and research installation libraries should be reported on the form for the main campus; in the case of administratively equal campuses of a multi-campus institution, extension center libraries and research installation libraries should be reported on the form for the most closely related campus. Data on library services in separately budgeted research ("R and D") centers should be included on the form for the appropriate campus.

If it is necessary to omit library data for any part of your campus, such as a law school library or a medical school library, write the name and address of the library unit(s) omitted from this report in item 9. Do not use item 9 to list library units whose data you included on this form.

C. NEED FOR ESTIMATES. Do not leave any items blank. Enter "0" if the appropriate entry for an item is zero or "none." If an exact figure is not available for a particular item, but the amount is known to be greater than zero, ENTER AN ESTIMATE of the amount. Indicate the estimated data by parentheses (). Estimates are important if exact data are not available for items such as the volume and item equivalents of material in microform (lines 12 and 13), for Work-Study wages not charged to the library (line 24, column (3)), or for salary expenditures of library staff serving on a regular basis, and salary equivalents of contributed services library staff, 1970-71 (lines 19 through 22). Items left blank may be misinterpreted and result in errors in the data-processing operations. Please request help from your business office in providing library expenditure and budget data.

D. QUESTIONS. If you have questions or need more copies of this form, please telephone Dr. Stanley V. Smith, (202) 963-4587 (Library Surveys Branch, National Center for Educational Statistics, 400 Maryland Avenue, SW., Washington, D.C. 20202).

SPECIFIC INSTRUCTIONS

PART I - LIBRARY COLLECTION, 1970-71

E. VOLUME. For reporting purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hard-bound or paperbound, which has been cataloged, classified, and/or made ready for use.

F. PRINTED GOVERNMENT DOCUMENTS. A printed government document is any publication in book or serial form bearing a government imprint, e.g., the publications of Federal, State, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc.

G. MICROFORM AND MICROFILM. All forms of microform (including microfilm) are to be excluded from lines 10 and 11, but ARE TO BE REPORTED SEPARATELY on lines 12 and 13. If the number of reels or other units of microform are not separately available in your records, please estimate their number for purposes of providing separate data here.

H. PERIODICALS. A periodical is a publication issued in parts that usually contain articles by several contributors. It generally has a distinctive title and the successive numbers or parts are intended to appear at stated intervals, usually for an indefinite period.

PART II - LIBRARY STAFFING, FALL 1971, AND LIBRARY EXPENDITURES FOR SALARIES AND WAGES, 1970-71

I. REGULAR AND HOURLY STAFF. REGULAR STAFF is defined as staff in full-time and part-time positions, usually serving with salary contracts. HOURLY STAFF is defined as non-regular staff. If your library has staff members who are paid on an hourly basis but who hold positions for which contract salaries are paid in most other libraries, it is preferable for the purposes of this survey to report such staff with the REGULAR STAFF. It is essential that positions be

reported as EITHER regular staff positions OR hourly staff positions, but NOT IN BOTH CATEGORIES. The fall 1971 number of REGULAR STAFF positions, filled (*men and women*) and vacant, 9 - 10 months and 11 - 12 months, should be reported only in columns (1) through (6) for lines 15 through 18. The salary expenditures for REGULAR STAFF, 1970-71, should be reported only in columns (1) and (2) for lines 19 through 22. The number of hours of assistance and the expenditures for wages of library staff serving on an HOURLY basis, 1970-71, should be reported only on lines 23 and 24. Note that column (3), line 24, on wages not charged to the library, is requested to round out data which otherwise would be incomplete.

J. LIBRARIAN, PROFESSIONAL, CLERICAL, AND OTHER STAFF. LIBRARIANS (*lines 15 and 19*) are defined as staff doing work that requires training and skill in the theoretical or scientific aspect of library work, as distinct from its mechanical or clerical aspect. PROFESSIONAL STAFF OTHER THAN LIBRARIANS (*lines 16 and 20*) are persons who, though not librarians, are in positions normally requiring at least a bachelor's degree. CLERICAL AND OTHER STAFF ON LIBRARY BUDGET (*lines 17 and 21*) are persons in technical assistance, receiving, shipping, storing, secretarial duties, etc. (*exclusive of custodial service*) who are specifically assigned to the library and are covered in the library budget.

K. CONTRIBUTED SERVICE STAFF. CONTRIBUTED SERVICE STAFF ordinarily should be reported only by religious institutions or institutions affiliated with religious or theological organizations. PUBLICALLY CONTROLLED institutions receiving contributed or volunteer service (*if any*) should EXCLUDE data on such service in this report.

L. FULL-TIME EQUIVALENTS OF REGULAR STAFF. The positions of all regular staff members (*other than those reported as hourly staff*) should be reported in terms of FULL-TIME EQUIVALENT (FTE) UNITS. Full-time equivalents are defined as the number of positions of a given staff level of persons who serve the library on a full-time basis, PLUS the full-time equivalent of any positions of the same staff level of persons who serve the library on LESS than a full-time basis. (*Assume that the term "full-time" is defined as it is used by your business office.*) For the purposes of completing lines 15 through 18, note the following examples of service which should be counted as a .5 FTE:

- a. A position for a person employed by your institution on a half-time basis throughout the year, and serving the library exclusively during that period.
- b. A position for a person employed by your institution on a full-time basis throughout the year, but who EITHER serves the LIBRARY only half-time during the year, OR serves the LIBRARY full-time during only one-half of the year.

PART III - LIBRARY OPERATING EXPENDITURES, 1970-71, AND BUDGET 1971-72

M. AMOUNT. Report only funds expended for the academic year 1970-71 and in the budget for the academic year 1971-72, regardless of when the funds may have been received from Federal, State, or other sources. Report all expenditure and budget figures as whole dollars only—OMIT CENTS.

N. SALARY EXPENDITURE DATA. To insure accurate reporting, please have your business officer assist with the entries made in lines 15 through 34, and 38. Include expenditures and budget data for contract salaries before any deductions, but exclude "fringe benefits" provided by your institution.

O. OPERATING EXPENDITURES OTHER THAN SALARIES. Expenditures for books and other printed materials (*line 25*) should INCLUDE expenditures for materials in microform. Expenditures for audiovisual and other nonprint materials (*line 26*) should EXCLUDE expenditures for materials in microform. Audiovisual and other nonprint materials include: (1) slides, transparencies, filmstrips, and films OTHER THAN those whose primary purpose is the reduction in size of printed materials; (2) dial-access program materials, audio-tape, video-tape, and disk (*phono-record*) recordings; and (3) study prints, art prints, art objects, posters, charts, diagrams, globes, maps, kits, and realia (*e.g., museum materials*). Do NOT include microforms with audiovisual and other nonprint materials. Expenditures for automation services (*line 28*) should include only such expenditures included in the LIBRARY budget. Other operating expenditures charged to your library, other than salaries and wages (*line 30*) should include expenditures for REPLACING equipment and furnishings; however, expenditures for capital outlay should be EXCLUDED from this form.

P. EXPENDITURES FOR LIBRARY SERVICE PROVIDED FOR ANY COMPONENTS OF YOUR INSTITUTION FROM OUTSIDE YOUR INSTITUTION'S OWN LIBRARY. Line 29 and items 35 through 37 are provided for the delineation of such services. For example, at times institutions start a branch campus in a place where fairly adequate temporary library service can be obtained from another nearby library, such as a public, industrial, military, or other academic library. While the new branch campus is developing its own library, the parent institution may arrange for library service to be provided from the outside source.

PART IV - FUNDS RECEIVED FOR SERVICES PROVIDED TO CLIENTELE OUTSIDE OF YOUR INSTITUTION, 1970-71

Q. There is an increasing tendency for academic libraries to provide specialized services beyond those covered by ordinary interlibrary transactions. Items 38 through 41 are provided to show the incidence and magnitude of such services.

PART V - DEVELOPMENTAL AREAS: INTERLIBRARY COOPERATION, COMMUNITY OUTREACH, AUDIOVISUAL AND/OR OTHER NONPRINT MATERIALS, FALL 1971

R. Cooperation among academic and other types of libraries, the extension of user privileges beyond an institution's own students, faculty, and staff, and the provision by academic institutions of a centralized, organized collection of audiovisual and/or other nonprint materials, are developmental areas that are expanding greatly. Items 42 through 45 are provided to indicate the strengths of these trends.
